

LASH TREND ACADEY

# CLASSIC EYELASH EXTENSION TRAINING COURSE

*by Cintia*

CINTIASZABO@LASH-TREND.COM

# Introduction

# Hello!

My name is Cintia Szabo, I`am the founder and CEO of Lash Trend Studio and Academy. By becoming a Lash Trainer my goal is to teach the future lash artists for the correct and healthy lash application and teach them how to create elegant, sophisticated look for their future clients.

With lash extension our goal is to add to our clients beauty and not to overdo and ruin their appearance.

Remember: " Even though it`s fake, it still can look natural. "

# About the Process

## Classic Lash Extension

### Day 1

#### Session 1: Introduction and Theory

Duration:( 9 hours)

Objective:

**Introduce students to the world of classic lash extensions and provide them with a solid theoretical foundation.**

#### **Introduction (30 minutes):**

Welcome and introduce the course instructor.

Briefly discuss the importance and popularity of lash extensions in the beauty industry.

Outline the objectives and structure of the two-day course.

#### **Theory of Classic Lash Extensions (2 hour):**

Explain the different lash extension materials, including lengths, curls, and thicknesses.

Discuss lash extension terminology and industry standards.

Address common concerns, such as allergies and contraindications for clients.

Talk about eye anatomy and how it relates to lash extension application.

#### **Health and Safety Practices (30 minutes):**

Discuss the importance of maintaining a clean and safe working environment.

Explain proper hygiene practices, including handwashing, sterilization, and disinfection.

Address safety precautions, such as client allergies and patch testing.

Emphasize the significance of using appropriate tools and equipment.

### **Client Consultation and Preparation (30 minutes):**

Explain the importance of client consultations and understanding their expectations.

Discuss how to assess and analyse the client's natural lashes and eye shape.

Demonstrate the process of cleansing and priming the natural lashes.

Show the correct placement of eye pads or gel patches to isolate the lower lashes.

(On 1:1 training it will be on doll head )

(on group training I demonstrate on each student and they practice on each other )

### **Lunch break (30min)**

## **Session 2: Lash Extension Application Techniques**

**Teach students the practical skills required for a professional classic lash extension application.**

### **Lash Extension Materials and Tools (1 hour):**

Discuss the various types of lash extensions, including lengths, curls, and thicknesses.

Explain the characteristics and effects of different lash extension materials.

Demonstrate how to select appropriate lash extensions for different eye shapes and desired outcomes.

Introduce the different types of tweezers and their specific uses.

### **Lash Extension Application (2 hours):**

Demonstrate proper lash extension isolation techniques using tweezers.

Illustrate the correct method of applying adhesive to the lash extensions.

Show the appropriate placement and attachment of lash extensions to the natural lashes. (practice on hair, sponge an doll head)

Discuss the importance of proper bonding and separation of lashes to achieve a natural look.

Highlight techniques for creating different lash styles and effects (e.g., cat eye, doll eye).

### **Hands-on Practice (2 hours)**

Student practice on doll head

On a group training after practicing on doll heads I would divide students into pairs, assigning one as the lash artist and the other as the model.

Provide student(s) with lash extension materials, tools, and a practice area.

Monitor and guide student(s) as they practice lash extension application techniques.

Offer individual feedback and suggestions for improvement.

# Day 2:

## Session 3: Refining Techniques and Troubleshooting

Duration: 8 hours

Objective:

**Build upon the skills learned on Day 1 and address common challenges faced during lash extension application.**

### **Review and Recap (1 hour):**

Recap the key concepts and techniques covered on Day 1.

Address any questions or concerns from the students

### **Advanced Lash Extension Techniques (2 hours):**

Introduce advanced techniques, such as layering, tapeing , and doubling.

Demonstrate how to create different lash effects, such as wispy or voluminous looks.

Discuss the use of different lash extension curls and lengths to create custom designs.

Teach students how to design lash maps and create personalized lash styles

### **Lunch break: (30min)**

### **Practice on live model (3,5 hours):**

Analyse the eye

Eye pads placement

Lash preparation

Lash application

Good coverage

Pictures for social media

Leave the model with good after care advice

### **Troubleshooting and Maintenance (1 hour)**

Address common challenges faced during lash extension application

Photo editing

Social Media advice

answering questions if there is any

**Certificate award + photos  
(temporary certificate)**
