Introduction

Hello!

My name is Cintia Szabo, I`am the founder and CEO of Lash Trend Studio and Academy. By becoming a Lash Trainer my goal is to teach the future lash artists for the correct and healthy lash application and teach them how to create elegant, sophisticated look for their future clients.

With lash extension our goal is to add to our clients beauty and not to overdo and ruin their appearance.

Remember: " Even though it`s fake, it still can look natural. "

3. Lunch Break
4. Styling and Customization, practice on live model

About the Process

Russian Volume Lash Course

Day 1:

Session 1: Introduction to Russian Volume Lashes

Duration:

Objective:

Introduce students to the Russian Volume lash technique and provide them with a solid theoretical foundation.

Introduction (15 minutes):

Welcome and introduce myself. Briefly discuss the popularity and demand for Russian Volume lashes in the beauty industry. Outline the objectives and structure of the two-day course.

Theory of Russian Volume Lashes (1 hour):

Explain the concept and history of Russian Volume lash extensions. Discuss the characteristics and effects of volume lash extensions. Address the differences between classic lash extensions and Russian Volume lashes. Introduce the terminology and industry standards specific to Russian Volume lashes.

Health and Safety Practices (30 minutes):

Discuss the importance of maintaining a clean and safe working environment. Explain proper hygiene practices, including handwashing, sterilization, and disinfection. Address safety precautions, such as client allergies and patch testing. Emphasize the significance of using appropriate tools and equipment for volume lash applications.

Preparing for Russian Volume Lashes (45 minutes):

Discuss the preparation steps for Russian Volume lash application. Demonstrate how to properly isolate and tape the lower lashes.

Explain the process of selecting the appropriate lash extensions for volume sets.

Address the importance of mapping and designing lash sets based on client preferences and eye shape.

Lunch break (30 minutes)

Session 2: Volume Fan Creation Techniques Objective:

Teach students the practical skills required to create volume lash fans effectively.

Lash Extension Materials and Tools (1 hour):

Discuss the different types of lash extensions suitable for volume lash applications. Explain the characteristics and effects of various lash extension materials. Demonstrate how to choose appropriate lash extensions for volume sets. Introduce the different types of volume lash tweezers and their specific uses.

Volume Fan Creation Techniques (2 hours):

Teach students various volume fan creation techniques on the strip. Demonstrate how to create fans using different lengths and thicknesses and by using different tweezers. Explain the importance of proper fan placement and spacing for a balanced and full look. Guide students on how to achieve consistent and symmetrical volume lash fans. Inform them from a different effect between the narrow and wide fans.

Volume Lash Application (2 hour):

Demonstrate the correct method of applying adhesive to volume lash fans. Illustrate the appropriate placement and attachment of volume lash fans to the natural lashes.

(demonstration on doll head, sponge and hair)

Discuss the importance of proper bonding and separation of lashes to achieve a natural and voluminous look. Highlight techniques for creating different volume lash styles such as open eye, doll, squirrel, cat, kitten and effects such as KimK, wet lash, eyeliner, foxy. Sharing tips and tricks how to rich the perfect lash line or wispy finish with certain techniques.

Day 2:

Session 3: Advanced Volume Lash Techniques and Styling

Objective:

Build upon the skills learned on Day 1 and introduce advanced volume lash techniques and styling.

Duration: 7 hours

Review and Recap (1 hour):

Recap the key concepts and techniques covered on Day 1.

Address any questions or concerns from the students.

Advanced Volume Lash Techniques (2 hours):

Introduce advanced techniques, such as multi-dimensional volume and mega volume (2D up to 7-8D).

Demonstrate how to create different volume lash effects, such as fluffy or textured looks.

Teach students how to design lash maps and create personalized volume lash styles. Discuss troubleshooting techniques for common challenges faced during volume lash applications.

Lunch Break (30 minutes)

Styling and Customization, practice on live model (4 hour):

Discuss lash styling principles and the importance of understanding client preferences.

Demonstrate different volume lash styling options, such as cat-eye, doll-eye, or natural looks

Practice on live model
